

## VS MEDIA Participates in the 2017 Tencent Global Partner Conference

The 2017 Tencent Global Partner Conference was held in Chengdu's Western China International Expo City on November 8-10. It is the largest annual industry event organized by Tencent, bringing together its 20+ business units and 50,000+ global business partners. VS MEDIA was greatly flattered by the invitation to participate in the exhibition, with our display booth set up among the over 200 exhibitors. We proudly present our latest strategy – building vertical content channels with unique digital short form videos and providing premium content to the global audience of the younger generation.
